

2017 Vision and word

I saw a small but mighty army emerging out of the deep valley of smog. There was no telling how many there were to this army. The army was dressed in full armour and was fully armed. The soldiers were focused and determined to take back what had been stolen, they were ready to occupy. They did not pay attention to the chaos around them and were not distracted by fancy fireworks going off in the distance that were designed to lure their attention away from the mission. **The smog did not dispel but got thicker and was choking nations ours included.** As I looked closer the army (remnant), we had oxygen masks on our faces and oxygen tanks strapped to our backs. (The Word).

Suddenly one soldier began to look around and take off his mask and instantly began to choke and get pulled out of line. Another soldier tried to help but could not force the defecting soldier to fall back in step.

A true relationship with a revelation of the Word of God, is the single most important element of living a victorious and abundant life in Christ. Our entire belief system needs to recalibrate to align with God's Word.

I kept falling asleep. I couldn't seem to wake up although it was early morning and I was not tired. I was speaking to the Lord in the midst of my sleep asking what was going on, It seemed like I had no control over what was happening. Then I realized it was spiritual not natural. **The Lord spoke to me and said the spirit of slumber and chronic fatigue needs to be broken off the body. He said blood levels are low and anemia has set in.**
